Welcome!

Welcome to your guide to the perfect garage door for your home from Express Garage Doors, Central Scotland's most professional specialist installer - part of the Oxley group!

We secure much of our work through recommendation, so we approach every job in the same way - give sound advice, provide best value, install to a standard we'd expect for our own homes and always give a first class service. We want to ensure Express is a name you'll be happy to recommend to family, friends and colleagues.

Welcome to the guide

We know you don't buy a garage door every day, so when you do, you want to be in safe hands.

Established in 1993, Express has many years of experience in the garage door industry. Now part of Oxley, Express Garage Doors can offer even more great products and services. For workmanship you can trust and garage doors you can rely on, choose Express!

Our service extends beyond installation and handover. We are there for you in the years ahead to provide maintenance, repairs and upgrades - best value today and peace of mind for the future.

Our range is extensive - this brochure provides just an introduction to the selection we have available. Our products are sourced from the UK's and Europe's finest manufacturers. The criteria for inclusion in our range is simple:

- Quality & value
- Durability
- Ease of use
- Safe use
- Comprehensive and fair warranty

Visit our showroom or take a virtual tour!

SCAN ME!

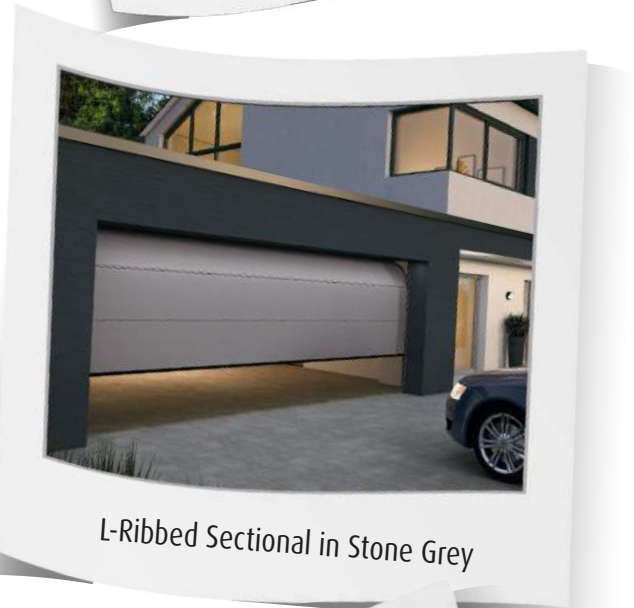

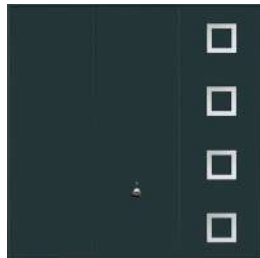

How to choose!

This introduction should help you start thinking about what is right for you. Not sure about what to choose? Our expert advisors are always on hand to help, just call 01383 852753.

Style?

The design you choose is a great opportunity to add sympathetic styling or a striking accent. Garage doors represent a large part of the look of your home and Express has something for every taste - contemporary minimal through to classic traditional - each will bring a transformation to your home!

L-Ribbed Sectional in Stone Grey

Finish & Colour?

The array of finishes and colours now available ensures you can choose just the right look. Textured finishes, colour coatings, wood effect laminates and natural timbers are just the start. Express can also produce custom colours to tie in with existing colour schemes - your imagination is the only limit!

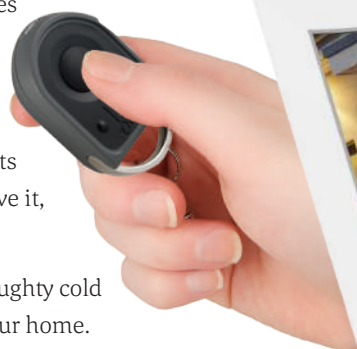

Performance?

The luxury of remote control is something its hard to imagine living without once you have it, but performance doesn't stop there.

Insulated garage doors can transform a draughty cold garage into a space that becomes part of your home.

When security matters, Express has many products available from manufacturers that carry the Secured by Design Accreditation - The Police Preferred Specification for security. See each product page for details on which company's products carry the accreditation.

Talk to us about your ideal requirement and we'll provide the solution!

Steel Roller Door in White

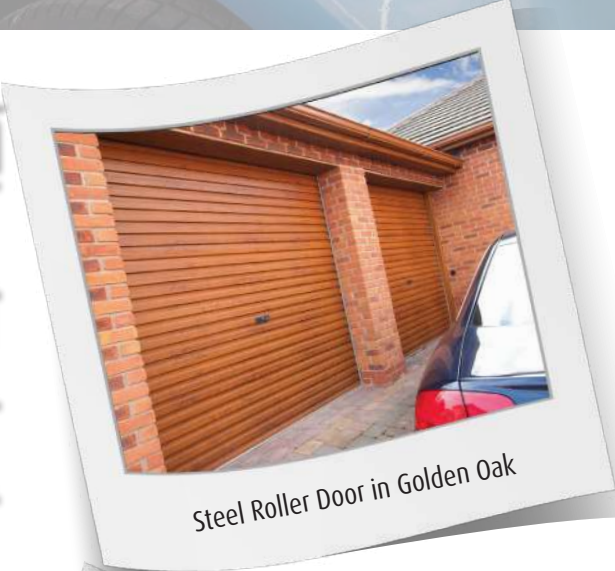

Steel Roller Garage Doors

Vertical opening gives Park-right-up convenience and combines with minimum intrusion into the garage space for a very practical door. The broad rib design looks great on any home. Whilst the steel door curtain is extremely strong and durable, spring assisted opening makes these doors light and easy to operate. Twin locking rods provide good security and the wipe clean finishes look good for years.

Adding remote control operation is easy and reliable, just press to open!

Light, smooth and quiet ✓

Steel Roller Door in Golden Oak

The curtain rolls neatly up behind your garage lintel so there are no tracks protruding inside your garage providing additional space and “park right up” convenience.

Reliability

A five year warranty covers the motor unit and the door control system - peace of mind as standard!

Smart control technology

The garage door control units uses cutting edge technology to control the door safely with a very reliable safety system that won't let you down.

Keyfob transmitters

Remote controls are supplied with every door. Extra remote controls can be added and are easy to programme.

Safety sensing

Every door has a safety sensor built in that stops and reverses the door a short distance on detecting an obstruction.

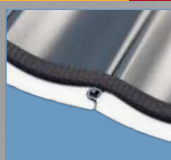

Manual override

If power fails, a simple hand crank allows the door to be opened by hand.

Webbing

Slats are fitted with webbing to assist the smooth operation of the curtain and reduce the noise levels during operation.

Insulated Aluminium Roller Garage Doors

Travelling vertically and rolling up neatly above the garage opening, roller garage doors allow the maximum use of storage space inside the garage. The insulation filled aluminium door is a high performance choice that has a high security specification as standard, keeping bikes and other valuables safely stored inside your garage. Our roller door with the RS-1 Roll-Smart Control safety system introduces an innovative safety system, see below for more details.

Automatic

With remote control as standard, these doors offer effortless luxury. Styling is crisp, with clean lines creating a modern look.

1 The full box option conceals the roll for a super-neat installation and encloses the door mechanism.

2 The half box option helps prevent debris dropping onto the door roll.

3 The no roll box configuration.

Secured by Design as standard

Our insulated roller garage doors are from SWS UK who hold the Secured by Design Accreditation for the SeceuroGlide range of roller garage doors – the Police preferred specification.

Insulated roller garage doors also have a strengthened barrel, endplates and guides. The autolock feature prevents the door from being lifted by an intruder and the 105dB alarm is a piercing deterrent that sounds should an attempt be made to force the door up.

Autolocks as standard

Multi-point locking

Up & Over Steel

Steel up and over doors do just that - travel up and over into your garage when opening. The classic styles are durable and strong, with light, spring assisted opening action in both single and double door sizes.

Retractable up and over doors are ideal for remote control and we'd recommend you choose automation as standard to open large double doors. It's an affordable luxury that works just as well on single doors too!

SCAN ME FOR MORE ABOUT AUTOMATION

Automation

Remote control is a surprisingly affordable luxury. Almost all doors have it as an option and it can be fitted when your new door is installed or as an upgrade to an existing door.

Safety is paramount and we ensure every system is CE marked for safe operation.

Control options range from a simple key fob sized transmitter, right up to smart phone GSM control.

Transmitters can also be linked to compatible automatic driveway gates via a multi button transmitter.

Your remote control garage door comes with a built in courtesy light for your convenience and safety.

Hörmann Anti-Lift Kit

Included on every Hörmann automatic door, the anti-lift kit automatically engages in the guide rail stop when the door is closed. The door locks immediately against forced opening.

Emergency Release

The pull handle provides an emergency release, so the door can be conveniently opened from the inside in the event of a power failure.

Hörmann BiSecur

The certified Hörmann BiSecur radio system is included as standard with all garage door operators. The extremely secure BiSecur encryption protocol with stable, interference-free range makes sure that no one can copy your radio signal and gain access.

Add windows - for the full range see page 6. Show above are cross windows fitted to a Slate Grey Georgian Horizontal Door.

Side Hinged

Side hinged garage doors are a traditional favourite brought right up to date. Convenient and so simple in every-day use.

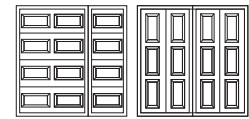

Security is excellent and the range of styles, finishes and windows allows personalisation to suit your tastes.

Insulated Side Hinged

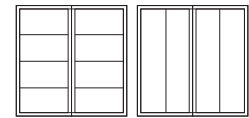

The solid 40mm thick insulated panels, engineered hollow section aluminium frames and high grade fittings, result in a door that closes with a reassuringly deep "clunk".

Insulated Garage Door Colours

The choice of finishes is vast. Solid colours, metallic colours and wood effects. Different textures too - smooth, embossed woodgrain, stucco or microrib. See page 5 for colour options.

If you don't see the colour you want in our standard range, we can paint your door to match other finishes on your home. RAL reference or Farrow and Ball shade. The paint finish has a low gloss lustre and will be a good match, but not an absolute match, to other finishes.

Any RAL Colour

Doors are also available with 1500mm or 1200mm 'D' handles.

Insulated Side Hinged Door in Woodgrain Anthracite

All styles are available as 1/2 and 1/2 split or 1/3-2/3 design and as matching single leaf side doors.

“A word about warranty & after sales service”

At Express, we are passionate about aftercare. We understand the purchase of a new garage door is a significant investment and our dedicated personnel will ensure you get the best available service.

Our attention to detail has given us a reputation in Central Scotland to be the number one choice for garage door installations.

As with all mechanical products, they will need servicing and repairing. All work should be carried out by professional engineers.

We recommend a twelve month service plan. This will both prolong the life of your garage door and also keep up with the manufactures warranty.

All our products are covered by manufacturers warranty and terms and conditions will be supplied with your quote. We endeavour to ensure all warranty issues are dealt with both fairly and swiftly - your satisfaction is important to Express.

Express has long-standing trading relationships with the UK and Europe's leading manufacturers and we select the finest products for inclusion in our ranges.
